

ipCapital Group Announces Promotions and Additions to the Team

Williston, VT, March 7 2016 – ipCapital Group (ipCG), a global innovation and intellectual property (IP) consulting firm that has been serving clients since 1998, recently announced promotions effective January 1.

Nancy Cronin was promoted from Principal Partner to Managing Partner at ipCG. Her client engagements address client issues across all of ipCG’s service areas of IP intelligence, strategy, management, creation, and innovation. The many industries and technology areas served include energy and environmental technology, chemical manufacturing, construction and building materials, consumer products, electronics, food & beverages, home automation, health & wellness, medical devices, on-demand services, software, semiconductors, 3D printing, internet of things (IoT) technology, and wearable devices.

Prior to joining ipCapital Group in 2001, Nancy was a consultant for international engineering consulting firms, including Montgomery Watson (now MWH Global), Radian Corporation, ERM, and Camp Dresser McKee (now CDM Smith). She received a BS in Engineering and Applied Science from the California Institute of Technology, and an MS in Engineering Science from Harvard University. Nancy is a Professional Engineer (PE) licensed in Environmental Engineering. She is a former member of the Board of Directors of the Caltech Alumni Association, and SWRI (Sustainable WasteResources International).

Adam Bulakowski was promoted from Director to Principal Partner at ipCG. Adam helps clients to build enterprise value and gain business advantage by thinking strategically about their innovation initiatives and associated intangible assets like IP. His recent work has helped large brands in both consumer and industrial markets, private equity investors on deal diligence, and growth companies in healthcare, information technology, connected devices, energy, education, and financial services.

Prior to joining ipCapital Group in 2008, Adam achieved operating and engineering results at two Fortune 500 industrials. For example, Adam designed the electronics for a portable environmental monitor that received an R&D100 innovation award in 2004. Adam earned his MBA with Distinction from the Tuck School of Business at Dartmouth and his BS summa cum laude in Biomedical Engineering from Boston University.

Mike D’Andrea was promoted from Analyst to Associate. Prior to joining ipCG in 2014, Mike supported ipCapital Licensing Group in their research and patent brokerage activities for three years. Mike holds a BBA, Double Major in Finance and Economics from the University of Massachusetts at Amherst.

Jeff Padgett and **Angus Knowles** joined the consulting team in Q3-4 2015. Jeff joined ipCG as a Senior Associate after recently earning an MBA in Sustainable Entrepreneurship at University of Vermont. A licensed Civil Engineer by training, Jeff worked with several consulting firms before founding, developing, running, and then selling his own successful consulting engineering firm in Vermont. Angus joined ipCG as an Analyst, after graduating in 2015 from University of Vermont in Mechanical Engineering.

“ipCapital Group continues to focus on our clients’ innovation initiatives and supporting IP needs. These promotions and additions to the team are a direct reflection of how our organization is responding to our clients’ requests,” said John Cronin, Managing Director and Chairman of ipCG.

About ipCapital Group

Since 1998, ipCapital Group has delivered over 900 successful IP engagements to companies in a wide range of industries. Its professional services maximize financial results for clients that seek to develop and execute innovation and intellectual property (IP) strategies, strengthen and monetize IP portfolios, and establish and implement Intellectual Asset Management (IAM) practices. ipCapital Group has an interdisciplinary team trained in business, law, marketing, and product development that provides a systematic and comprehensive view of the full lifecycle of innovation and IP, from creation to monetization to retirement.
